

What is HQC system?

HQC is the quality assurance system of Hexanova, dedicated to dietary supplements and foodstuff for particular nutritional uses. The system guarantees the highest quality of each dietary supplement marketed by Hexanova. The HQC system includes the design, production and research part, as well as storage and transport.

DESIGN / RESEARCH / DISTRIBUTION

1. Each supplier of a service or raw material supplier is subject to a strict supplier qualification procedure;
2. All raw materials and materials (packaging) are selected in accordance with the raw material / starting material specifications, ensuring the highest quality requirements;
3. Manufacturing is carried out in accordance with Good Manufacturing Practice - **GMP**;
4. All dietary supplements are made in accredited laboratories subject to the qualifications of Hexanova suppliers;
5. Storage and transport of dietary supplements takes place in accordance with the Good Distribution Practice - **GDP**.

Each series of the dietary supplement manufactured by Hexanova is strictly tested in terms of:

- **Microbiological purity**
- **Content of active ingredients**
- **Heavy metal content**

The HQC system is a guarantee of safety and the highest quality of all supplements marketed by Hexanova.
